

## We can provide you with a comprehensive matching service.

### How it works:

- you register your position descriptions with us.
- people interested in volunteering contact us or log on to GoVolunteer
- the prospective volunteers are interviewed to determine their motivation, skills, interests and availability.
- if there's a match prospective volunteers are provided with your contact details
- the volunteer contacts you
- you select your volunteers

### You can start straight away

if you meet our minimum standards for working with volunteers

i.e. your organisation:-

- is not for profit
- has public liability and volunteer accident insurance
- has a nominated person to manage their volunteers
- has specific position descriptions for each volunteer position
- has a volunteer management policy

### Not there yet?

We can work with you to achieve these objectives.
